

TECHNI SS 94
Paslanmaz Flexible Üstü Örgülü Hortumlar / Stainless Steel Braided Flexible Hoses

-270 / +700 C°
Özellikler :

- 316 veya 321 kalite paslanmaz çelikten mamül spiral hortum
- Üzerine aynı kaliteden paslanmaz örgü ile takviyeli
- Çok mukavemetli olmasına rağmen hafif ve esnek
- Korozyona dirençli, titreşim emici özelliğe sahip
- -270°C +700°C ye dayanıklı

Features :

- Spiral hose made of stainless steel 316 or 321 quality, outer surface braided with same quality wire.
- Very light and flexible but very strong and resistant to high pressures and corrosion.
- Operating temperature: -270C+700C
- Working pressure: 25bar-150bar (acc. to diam)

Kullanım Alanları:

- Sanayinin her kolunda, yüksek basınç, yüksek ısı gerektiren her türlü sıvı, yağ ve hava emiş ve tahliyesinde ve hareketli ortamlarda, özellikle demir çelik sektöründe.

Using Areas:

- For all the industries for the suction and discharge of liquids, oils and air especially under high temperature and pressure conditions. Also vibration resistant. Especially for iron and steel industry.

TECHNI KRAFT 95
Kraft Hortumlar / Kraft Hoses

-40 / +130 C°
Özellikler :

- Alüminyum kaplı kraft kağıttan mamül, son derece esnek ve hafif
- -40°C +130°C ye dayanıklı

Features :

- Made of kraft paper with aluminium covering
- Operating temperature: -40C+130C

Kullanım Alanları:

- Motorlu araçların ve her türlü makinaların havalandırma sistemlerinde. Kahverengi, siyah ve alüminyum renkli tiplerde.

Using Areas:

- Especially in automotives and machines for the ventilation systems. Brown, black and silver colour types.
